* Project Update on funded projects. This year Pathways to Thrive

Notes from meeting will be cascaded accordingly

Storm drains

Morston Hall Road/High Road, flooding issues at junction.

Took photos of area and sent to Carly and Cllr Hale as requested at previous meeting.

After much reporting over inordinate amount of time, latest report received action and storm drain cleared.

Cllr Hale thanked for assistance on this

Ongoing issues with other storm drains within parish

A14 works

Query from several residents regarding water being drawn from a hydrant at High Road/St Martins Green junction with vehicle parked causing poor visibility pulling out from St Martins Green.

Water is for A14 work taking place and hydrant is only one permitted to use. Water meter fitted accordingly.

Work should finish this week.
